

Magento 2 Layered Navigation Extension

Introduction

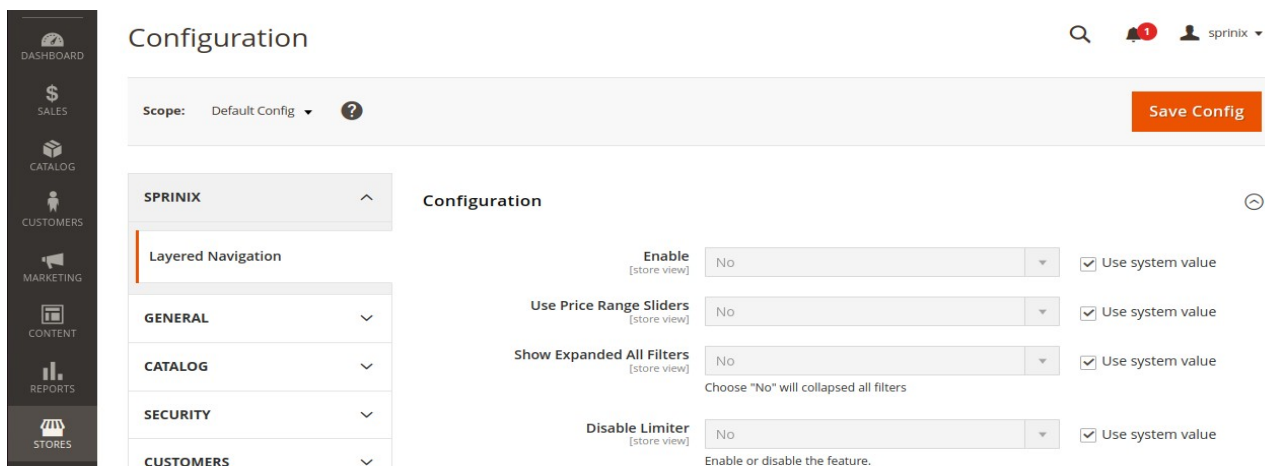

This extension allows customers to quickly find desired products using attributes like color, size, and price. The integration of Ajax technology ensures search results are displayed instantly without reloading the page, leading to faster buying decisions and potentially higher conversion rates.

With the help of this extension, you can save your time because it prevents the page from loading and helps in fast searching.

Installation Instructions

1. Download 'Sprinix_Navigation' Extension zip.
2. Extract Files.
3. In your magento2 project's directory follow this path `src->app->code` and make a new directory **Sprinix** .
4. Copy '**Navigation**' folder inside the Extracted folder and paste it inside *Sprinix*.
5. Run following commands:
bin/magento setup:upgrade;
bin/magento setup:di:compile;
bin/magento setup:static-content:deploy -f;

Now all the new settings of this extension can be seen in the project Admin.

The screenshot shows the Magento 2 Admin Configuration page for the Sprinix extension. The page title is "Configuration" and the scope is set to "Default Config". A "Save Config" button is visible in the top right corner. The left sidebar contains a navigation menu with options: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, and STORES. The main content area is titled "SPRINIX Configuration" and shows the following settings:

Setting	Value	Use system value
Enable [store view]	No	<input checked="" type="checkbox"/>
Use Price Range Sliders [store view]	No	<input checked="" type="checkbox"/>
Show Expanded All Filters [store view]	No	<input checked="" type="checkbox"/>
Disable Limiter [store view]	No	<input checked="" type="checkbox"/>

Additional notes for the "Show Expanded All Filters" setting: "Choose 'No' will collapsed all filters".

Admin Store Configuration

To Configure the Sprinix Attribute Extension for your stores follow the path given below

STORES -> Configuration -> SPRINIX -> Layered Navigation

1. For the field, 'Enable', select 'Yes' to enable the extension, if field is set to 'No' then module will not display on menu.
2. For the field, 'Use Price Range Slider' select 'Yes' If you want to use *price range slider* instead of price range. When you select 'Yes' one another field will appear in which you can give slider scroll value.
3. For the Field 'Show Expanded All filters' select 'Yes' If you want all the filters to be open.
4. For the Field 'Disable Limiter' select 'Yes' If you want show all product together and don't want be show the pagination.

After selected field click on the 'Save Config' button located on the top right.
