

# Introduction

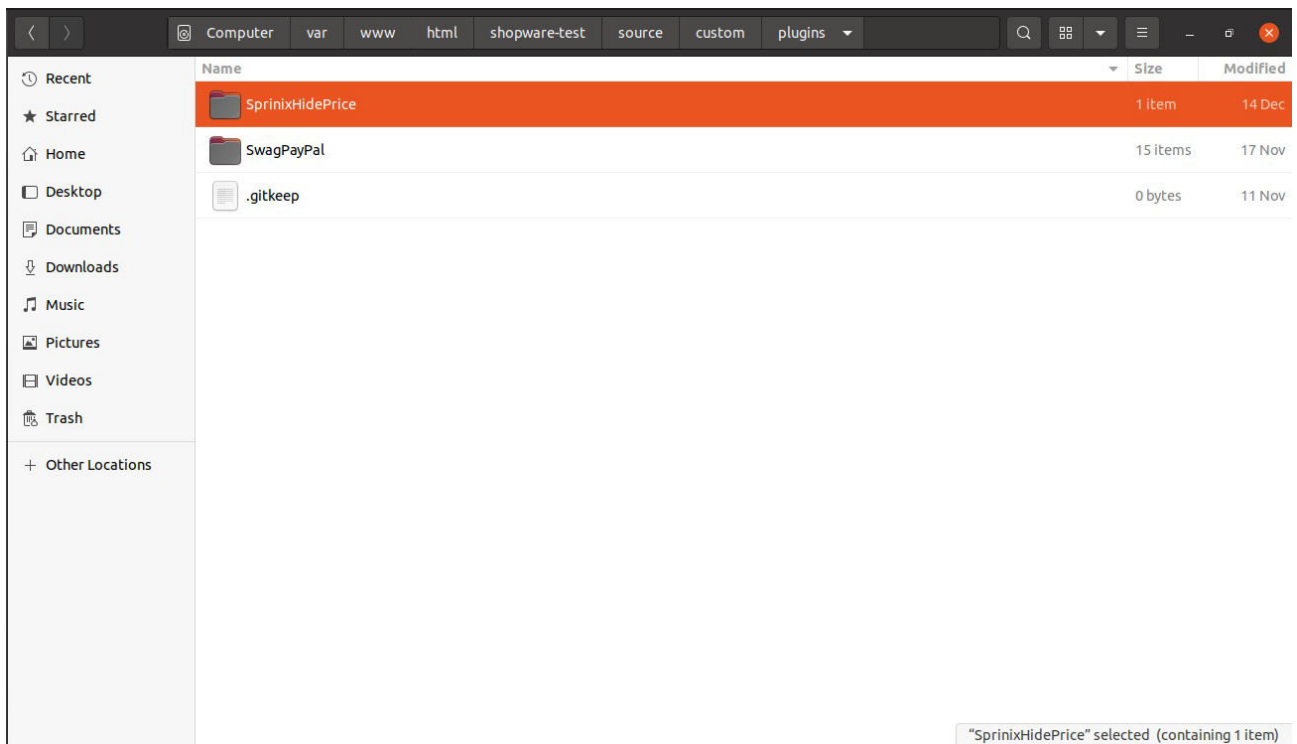

This module will help the store owner to hide the product price from the product page. The customer can add the products in the cart, and they can proceed with the checkout process after login to the store and complete their order for the product. This module is a standalone module for Shopware.

## Features

1. The admin can hide the price for all product.
2. The price will not show until the customer doesn't log in.
3. At the place of the "Add to cart" button, there is a login button "Login to view price" which redirects to the login page.
4. The customer can not add the products to the cart without login.
5. The admin can set a customized title for "Login To See Price"
6. At the place of the "Add to cart" button, there is a login button "Login to view price" which redirects to the login page.
7. The code is open-source so it can be easily customized.

## Installation using commands

Customers will get a zip folder, and they have to extract the contents of this zip folder on their system. After extracting the SprinixHidePrice folder, the customer needs to transfer these custom > plugins on the server, as shown in the image below:

After the successful installation, you have to run these commands in the Shopware root directory.

**1. Run this command to refresh the plugin –**

```
php bin/console plugin:refresh
```

**2. Go to your Shopware installation Root directory and run this command to install then activate the plugin –**

```
./bin/console plugin:install --activate SprinixHidePrice
```

**3. To installing the assets(CSS/JS)**

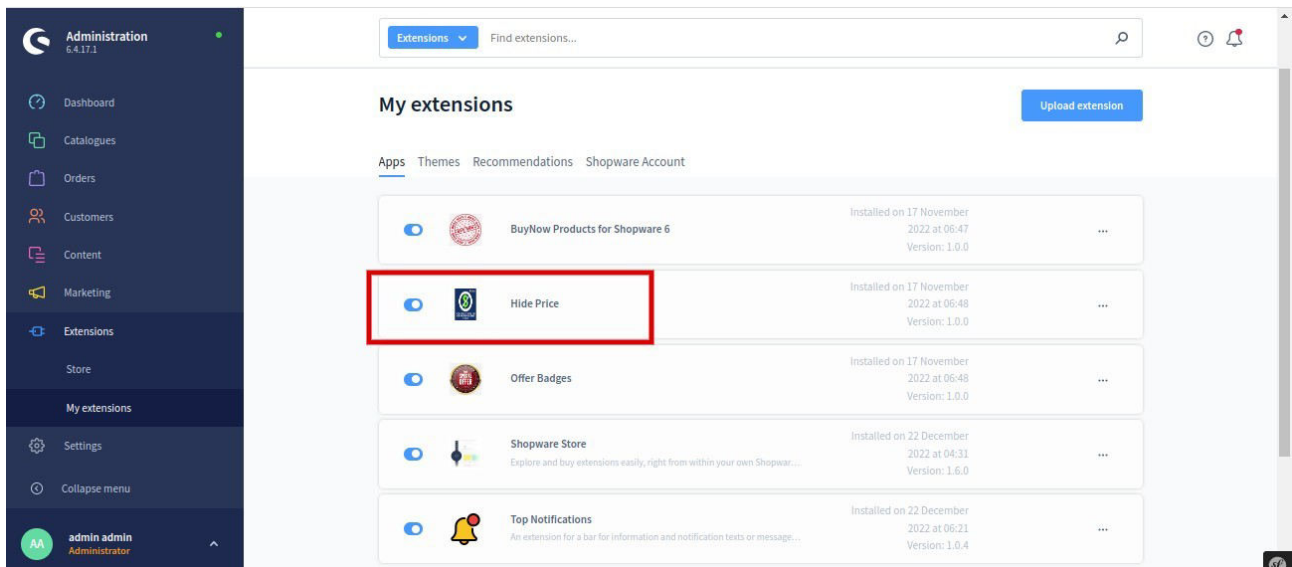

```
./bin/console assets:install
```

**4. To clear the cache run this command –**

```
php bin/console cache:clear
```

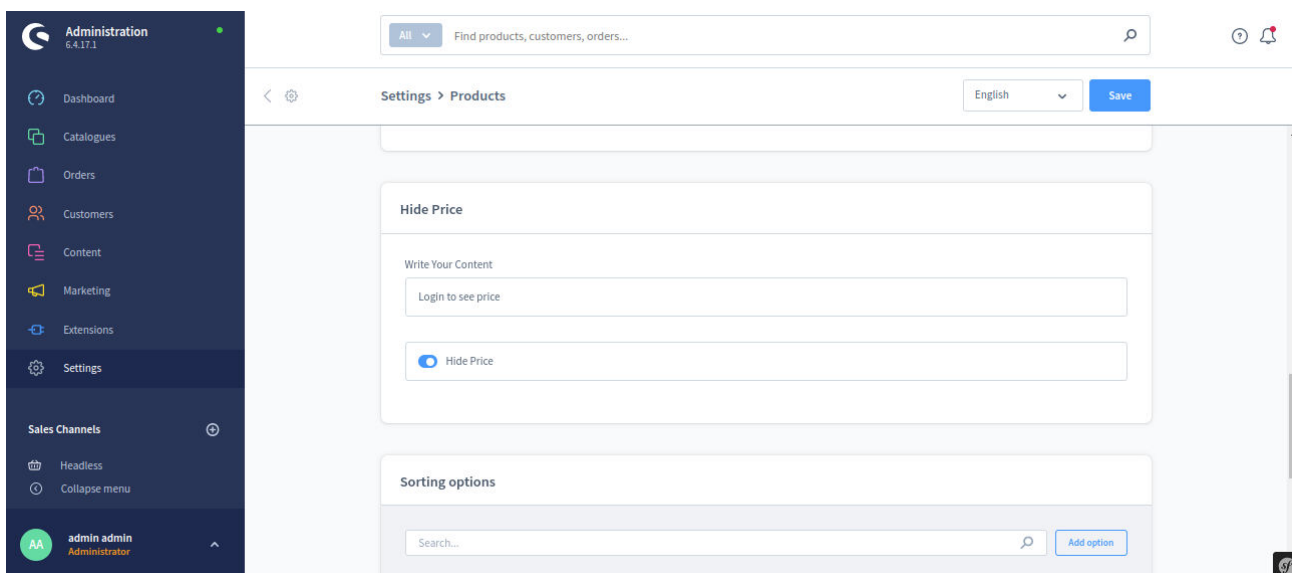

**Now refresh the administration.**

After that, visit administration Extensions-> My Extension, the Buy Button plugin will be listed there.

## Shopware Back-end

Now goto Shopware backend Settings -> Shops -> products

**Enabled** – Set this option as **Yes** for showing prices as well as hide price button for all users.

**Title** – Enter the name of the button label.

**Click the Save button to save your changes.**

# Frontend

At the front end, the price for the product will be disabled, and only after login can the price of the product be seen by a user
